### SKILLS

- **Programming Languages :** C, C++,java, Python, MAD
- **Web Technologies / Frameworks:** HTML, CSS, JS , Node , React, Bootstrap, SQL, Excel
- **Databases :** MySQL
- **Others:** Git & GitHub, CRUD Operations , VS Code, Power BI
- **Soft Skills:** Strong verbal communication, Team collaboration, Problem-solving

### EDUCATION

|                                                                                                       |                                                    |
|-------------------------------------------------------------------------------------------------------|----------------------------------------------------|
| <b>Savitribai Phule Pune University, Pune</b><br>of Technology in Data Science                        | Oct 2024 – May 2027 Bachelor<br><b>CGPA : 8.52</b> |
| <b>All India Shri Shivaji Memorial Society's Polytechnic, Pune</b><br>Diploma In Computer Engineering | June 2021 – June 2024<br><b>Percentage: 88.89%</b> |
| <b>Muktangan English School &amp; Jr. College</b><br>SSC Education                                    | 2011-2021<br><b>Percentage: 86.8%</b>              |

### PROJECTS

#### Foodie Vision – Smart Dining System App

**Tech Stack:** Mobile Application Development, Firebase, AR

Developed a smart dining application featuring **AR-based food visualization, dish customization, and budget-based recommendations**. Implemented **secure payment integration, user feedback & review system**, and ensured **data privacy**.

#### Intelligent Virtual Doctor (ML Project)

- Built a machine learning-based system to predict diseases based on symptoms
- Applied NLP techniques for symptom analysis
- Designed user-friendly interface for real-time predictions
- **Tech:** Python, Scikit-learn, Pandas

### ACHIEVEMENTS

- **TECHNOTHON-2024 - Won 1st prize** in competition and won cash prize of 7500/- conducted by Anantrao Pawar College Of Engineering And Research, Pune

### CERTIFICATIONS AND TRAINING:

- Infosys Springboard (Multithreading and Multiprocessing in Python), AWS Cloud Economics, Software Testing Fundamentals, Automated Software Testing.

### INTERNSHIP:

- Python Intern, IPCS Global – Gained hands-on experience in Python programming and application development.
